

# WHAT IS RUNNING INTO YOUR WATER?

## INSTRUCTIONS

Color each section:  
Farm: green  
Neighborhood: purple  
Factory: red  
Town: yellow  
River and waterways: blue

With the picture face up, fold it in half lengthwise.

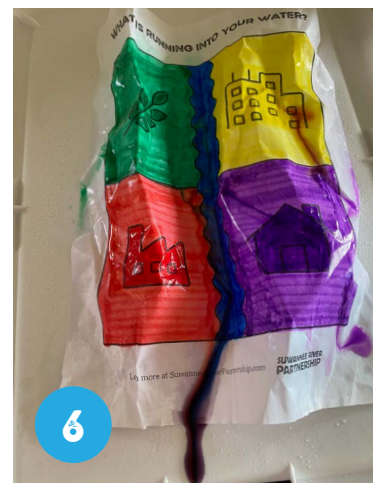

Fold each edge down on the outside forming an "M" shape.

Gently crumple the paper.

Smooth out slightly, keeping the general "M" shape. Place in a shallow pan or tray. Water from the spray bottle represents rain. Begin to spray the water onto the paper.

Observe and discuss what happens to the different colors.
